TOPPAN Security

BioTap

Privacy

The fingerprint data never leaves this GDPR compliant card. Consumers retain full control over their personal information.

Payment Network Certified

The highly secure technology is certified by EMV® and ISO standards.

Works with Existing EMV Terminals

No battery is needed to operate this card. The onboard sensor is powered by the EMV® POS terminal.

Security

All sensitive information including fingerprint data is securely stored in the chip.

Self Learning Technology

The smart algorithm learns more about your fingerprint with every touch, ensuring a seamless payment experience.

Sensor

The small yet reliable fingerprint sensor is capable of recognizing your finger from any angle.
